DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 5-12, and 14-20 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Burkey #2,751,881. Burkey discloses a method of increasing the velocity of a portion of water in a channel. Although used for fish diversion, the thrusters 82 are capable of draining flood waters from a geographic area by increasing the velocity of the portion of water and mixing the portion back in to the remainder of said waters. Furthermore, the use of propellers for thrusters would have been obvious, since it is well known to use propellers as thrusters for moving water.

Allowable Subject Matter

3. Claims 4 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
